

Arc@D August Lecture Series

Arc@D, Dartmouth's Undergraduate Architecture Club
for students interested in architecture, design, urban planning,
architectural history, and theory.

Curious about architecture as a career?
Want to learn about what architects do and how they work?
How do you get from Dartmouth to practicing in the real world?

Come see Dartmouth alumni present their work and hear about
their experiences as an undergrad and after Dartmouth.
Bring lots of questions and an appetite!

Everyone is welcome.

Please RSVP to 'architecture' so we have a head count for pizza!

WHO: John Vansant, Principal of
Smith & Vansant Architects / Vermont

WHEN: 4:15 PM, Tuesday, Aug. 23

WHERE: 4 Currier Place, Rm 125
(architecture & studio art building)

*Directions: Walk past the Courtyard Cafe, out the back of
the HOP, and down past Rosey Jekes.*

Come hear John Vansant speak about his Nor-
wich based architecture practice, Smith &
Vansant Architects. An English major at Dart-
mouth, John went on to get his Master of Archi-
tecture at UVA. He has worked on many resi-
dential, commercial, and community projects
in New England, with an emphasis on energy
efficiency and sustainability.

Fun fact: Smith & Vansant renovated Zeta
Psi and Casque & Gauntlet!

“Overarching goals of our practice include use
of sustainable technologies & materials wher-
ever possible, and the creation of buildings
which are both durable and beautiful.”

Interested in healthcare design? Barry
Brensinger (Harvard University GSD) pro-
vides Lavalley Brensinger Architects overall
practice leadership, while actively serving
healthcare and corporate clients. Barry has
been repeatedly honored as a community lead-
er through his dedicated work with various not-
for-profit organizations. Under his guidance, the
firm's Healthcare Design Group has become the
most experienced healthcare planning and design
team in northern New England.

Fun fact: Lavalley Brensinger renovated the
Alumni Gym!

“It is our commitment to building vibrant communities that
has inspired our concentration on those building types most
essential to thriving community: Healthcare, Education, and
Corporate/Civic.”
