Current Bikes for Sale
from the Office of Sustainability

The Big Green Bike Project relies on student volunteers and Sustainability Office interns to gather abandoned bikes from around campus and refurbish them using salvaged parts. We aim to restore bikes to safe, usable condition, but they may not be perfect and are sold as-is. The Office of Sustainability and our volunteers are not responsible for any problems with functionality or safety that may arise in the future (but please let us know and we may be able to help with further repairs!)
