

GLOBAL HEALTH DAY

Thursday, April 3rd – All events in Haldeman & Kemeny, 4PM to 8:30PM

Dartmouth's first Global Health Day is a showcase of student global health activities and experiences being undertaken across the undergraduate, graduate and professional school campuses. The goal of Global Health Day is to feature the rich diversity of global health work being done in different disciplines and engage students in discussions around contemporary issues in global health.

Check out dickey.dartmouth.edu for more info!
