

Be involved. Transplant hope.

Join the Be The Match Registry®.

Patients need you! For thousands with blood cancers like leukemia or other diseases like sickle cell anemia, a marrow transplant is their only hope for life. If you have diverse ancestry, patients especially need you because they are most likely to match someone who shares their heritage.

In memory of Dezma, move forward and always have hope. Dezma was so excited to be photographed by Be The Match. In those brief few hours, she forgot about cancer and again felt like the beautiful 11-year-old the world knew her to be.

We were deeply saddened by Dezma's passing in April 2013. She was featured in our national campaigns because she inspired so many to give, join the registry and volunteer. With her family's blessing, we continue sharing Dezma's story of hope and indelible spirit.

Join with just paperwork and a cheek swab!

**Marrow Donor Registry Drive,
