Graduate Students

Graduate students have the option to be Alumni members OR Collegiate members. We recommend you choose your membership type based on your level of involvement in NSBE. If you do more NSBE interaction on a University campus - Collegiate membership may be right for you.

If instead, you interact more with local professionals or feel like the undergraduate chapter doesn't fit your needs, we welcome you as an Alumni member and encourage you to join or start your local Alumni Extension Chapter.

Membership Term

The membership term is one year from August 1 - July 31 of the following year.

When you pay for your membership, check the "Auto renew" box to automatically renew your membership this year. Never be without membership benefits again!

Annual Dues

Annual dues as of August 1, 2014 are \$18, according. There may be additional chapter and regional dues that you have to pay to be considered a fully active member.

If you choose not to be affiliated with a chapter in your local area, you will be considered a "Member At-Large," classified by your geographical region. Members "At-Large" receive the same national benefits as those who belong to a chapter.
