

Tisch MS Research Center of New York

Research Assistant Position:

A Research Assistant position will be available at the Tisch Multiple Sclerosis Research Center of New York (Tisch MSRCNY) starting the summer of 2023. Tisch MSRCNY is an independent research center in New York City dedicated to finding the cure for MS, under the direction of Saud A. Sadiq, MD. The Tisch MSRCNY is closely affiliated with the International Multiple Sclerosis Management Practice, creating a unique environment designed to accelerate the pace of scientific discovery. Please visit our website for more information www.tischms.org.

Ideal candidates for this educational opportunity are students, who have recently completed their undergraduate education, seeking a rewarding experience in a biomedical research program before attending graduate or medical school. Working in our research laboratory, under the direct supervision of a principal investigator, the Research Assistant will be required to perform a variety of techniques in the fields of immunology, molecular biology, cell biology, and neuroscience including, but not limited to, PCR, aseptic cell culture technique, histology, experimental animal models, western blotting, ELISAs, and flow cytometry.

Candidates must have good oral and written communication skills and should be able to demonstrate the ability to work as a team. Applicants must have a recent Bachelor's degree in the biological sciences, OR should have an expected graduation date for the spring of 2023. Previous laboratory experience and a two-year commitment are required.

We offer a very competitive salary and benefits package. If interested, please send cover letter, CV (please include your GPA), and names of three references to researchjobs@tischms.org. Please specify **"Research Assistant Application"** in the e-mail.

Tisch MS Research Center of New York

Clinical Research Assistant Position:

A Clinical Research Assistant position will be available at the Tisch Multiple Sclerosis Research Center of New York (Tisch MSRCNY) starting the summer of 2023. Tisch MSRCNY is an independent research center in New York City dedicated to finding the cure for MS, under the direction of Saud A. Sadiq, MD. The Tisch MSRCNY is closely affiliated with the International Multiple Sclerosis Management Practice, creating a unique environment designed to accelerate the pace of scientific discovery.
