

Randy S. Longman, M.D., Ph.D.

Director, Jill Roberts Center for Inflammatory Bowel Disease

Member, Jill Roberts Institute for Research in Inflammatory Bowel Disease

Associate Professor of Medicine, Division of Gastroenterology and Hepatology

**Clinical Research Assistant
Jill Roberts Center for IBD, Weill Cornell Medicine**

We are looking for a dynamic, meticulous, and enthusiastic person to work as a clinical research assistant in active clinical practice treating inflammatory bowel disease for Dr. Randy Longman, MD/PhD.

Job Overview:

- Full-time position with 2-year commitment
- Coordinate multiple clinical research studies, including: Phase III clinical trials, Longitudinal follow-up studies, Patient registries
- Work closely with multiple physicians, primarily in Gastroenterology
- Opportunity for daily shadowing in outpatient clinics, as well as regular learning opportunities (lectures, case conferences, grand rounds, etc.)

Salary Range: \$22.11 to \$28.79

Job responsibilities:

- Protocol development
- IRB submission and maintenance
- Medical chart review
- Data acquisition and analysis
- Biological sample collection with basic laboratory processing and sample storage
- Manuscript preparation
- Facilitate study enrollment and outpatient follow-up visits
- Daily interaction with physicians, nurses, patients, and families

Preferred qualifications:

- One year research and/or clinical experience preferred but not required
- Strong interpersonal skills, writing/communication skills, and attention to detail

- Self-starter who takes initiative when appropriate and works well in teams with multi- disciplinary and culturally diverse backgrounds
