“Personalizing Mass Incarceration: Exploring American Justice and Injustice”

Extending from the four works from his *Jerome Project* currently on view in *Gilded*, artist **Titus Kaphar** will explore what has inspired his current work.

Urgent and timely, his artworks capture the spirit of social justice and change in America today. His vital and moving talks expose the racism and inequality we take for granted and reveal what we need to do to move forward. Reception to follow in the Russo Atrium.
