

ENERGY SYSTEMS ANALYST

Date Posted: July 16, 2012
Applications Accepted Through July 30, 2012

Position Summary: The Analyst will perform economic and financial modeling and analyses of electricity and natural gas markets, conduct research on energy technologies, policies, and markets, and provide analytical support to the range of consulting services conducted within the firm. The Analyst will support consulting teams in providing analytical services and advice to our diverse client base, including utilities, consumers, regulators, financial institutions, and competitive market participants and will be involved key modeling and analytical functions necessary to provide these services.

Qualifications: A Bachelor's degree and strong academic background in engineering, applied economics, operations research, finance or mathematics is necessary. An advanced degree, while not essential, is preferred. Strong quantitative, modeling and statistical skills are required, as well as an ability to work with teams and to effectively communicate technical results. Some experience conducting economic and financial modeling and analysis, preferably in the electric power or other energy industry, is also preferred.

La Capra Associates is a consulting firm specializing in energy planning, market analysis, and regulatory policy in the electric and natural gas industries, offering strategic planning and technical consulting services to a broad spectrum of clients throughout the US and internationally. We have offices in Boston, Portland Maine and Williston Vermont. The preferred location for this Analyst position is Boston. This position offers the opportunity to participate in a dynamic, growing, employee-owned consulting practice. We offer a highly competitive compensation package, a rewarding and stimulating work environment, and significant potential for continuing professional growth and advancement in firm.

You may apply for this position by sending your resume to humanresources@lacapra.com, or mail to: *Human Resources, La Capra Associates, 9th Floor, One Washington Mall, Boston, MA 02108*. For more information, visit us at www.lacapra.com.
