

2017 Public Science Outreach Internship Program

Join leaders in public science education for a **12-week paid internship**. Sponsored by the Carthage College and the Appalachian Mountain Club, this program reaches thousands of people annually. You will receive training in nature and outdoors education through astronomy, communication skills, and public engagement.

The program is located at facilities of the Appalachian Mountain Club in the **White Mountains of New Hampshire** and the **Maine north woods**. Room and Board are provided, along with a stipend of **\$3000**.

You: Background and experience in **astronomy, nature, and the outdoors**. Good **communication skills**, able to work in **diverse teams**, and comfortable addressing **broad and diverse public audiences**. Preference is given to rising Juniors and Seniors, but all students may apply. For interested Dartmouth students, **contact Prof. Hickox at Ryan.C.Hickox@dartmouth.edu by Feb 28th**

Carthage is a liberal arts college founded in 1847 located in Kenosha, WI. With a strong program in physics and astronomy, combined with dedication to public nature and science education and experiential learning for students, it has since 2012 delivered high quality public science education programs to over 30,000 members of the public in partnership with the AMC.

The Appalachian Mountain is the nation's oldest outdoor education, recreation, and conservation organization. Founded in 1876, it serves an audience of over 650,000, and offers programs at lodges, high mountain huts, and camps throughout the northeast US.

This program is supported by the National Science Foundation under grant no. 1625316.
