

Senior Design Challenge

Hands-on learning. Real-world impact.

You're an individual who likes to push the boundaries. Who questions the way "it has always been done." You want to apply your Dartmouth education in the field alongside motivated peers and build a unique, interdisciplinary skillset.

Let's make it happen.

The Senior Design Challenge is a new two-term capstone course for Dartmouth seniors. You'll work collaboratively to tackle real-world challenges in partnership with local organizations.

Apply now.
