

STOP THE BLEED®

Why Learn?

A bleeding injury can happen anywhere. We've all seen it happen too often—on the news or in everyday life. Life-threatening bleeding can happen in people injured in serious accidents or disasters. Instead of being a witness, you can become an immediate responder because you know how to STOP THE BLEED®.

What You'll Learn

What stops bleeding? In a STOP THE BLEED® course, you'll learn three quick techniques to help save a life before someone bleeds out: (1) How to use your hands to apply pressure to a wound; (2) How to pack a wound to control bleeding; (3) How to correctly apply a tourniquet. These three techniques will empower you to assist in an emergency and potentially save a life.
